➤ **Objective:**

Seeking a role in **Testing** where I can apply my skills in software testing, bug tracking, and quality assurance to ensure high-quality applications and contribute to the organization's success. Additionally, leveraging my development experience to enhance testing efficiency and software reliability

➤ **Summary:**

- 2+ years of experience in **Software Testing and Development**, with a primary focus on **Manual Testing and Quality Assurance**.
- Strong understanding of **Software Testing Life Cycle (STLC)**, **Test Case Writing, Execution**, and **Defect Tracking**.
- Experience in **Functional Testing, UI Testing, and API Testing using postman**.
- Familiarity with **Database Testing (Basic SQL Queries)** and **Agile Methodology**.
- Hands-on experience with **HTML, CSS, JavaScript, React.js**, and backend API testing.

➤ **Testing Skills:**

- Manual Testing (Functional and Api testing)
- Test Case Writing & Execution
- API Testing using Postman
- Database Testing (Basic SQL Queries)
- Agile Methodology

➤ **Technical skills:**

- **Frontend:** HTML5, CSS3, Bootstrap, JavaScript, ReactJS, Redux, Material-Ui.
- **Backend:** NodeJS, ExpressJS, REST API.
- **Database:** Mongo db.
- **Cloud:** Azure.
- **Tools:** Postman, **GitHub**.
- **OS:** Linux, Mac, Windows.

➤ Education:

- **M.C.A** Jain University Karnataka.
- **B.C.A** S.N. S BRABU, Bihar (2020).
- **12th** Bihar Intermediate Education Council, Patna (2017).
- **10th** from Bihar Board Patna (2015).

➤ Project:

Production Plan Project – DataNovelTech | December 2024 – Present

Technologies: ReactJS, Python, Flask, Bootstrap, CSS

Role: Manual Tester (Primary) & Developer (Secondary)

Testing Responsibilities:

- **Test Case Writing & Execution** – Developed detailed test cases covering **production planning, serialization, and item listing workflows**
- **Manual Testing** – Performed **UI, and functional testing** for **CRUD operations, pagination, filtering, and search features**.
- **API Testing** – Used **Postman** to verify API responses for **production data creation, updates, and retrieval**.
- **Regression Testing** – Identified and fixed **bugs related to data inconsistencies, UI performance, and system stability**.
- **Defect Tracking & Reporting** – Documented defects using **bug tracking tools**, collaborating with the development team for resolution.

➤ Development Contributions:

- Implemented date-wise production planning for efficient task scheduling.
- Developed a **serialization module** to track production batches.
- Integrated **custom printing options** for generating production reports
- Created a **centralized item list component** to display and manage items
- Developed **CRUD operations** with pagination, filtering, and search.
- Designed an **admin panel** for user and workflow management.

➤ Experience

React.js Developer – Payrup | August 2022 – June 2023

- **Worked as a Developer & Tester**, actively participating in the **development and manual testing** of web applications.
- Designed and developed UI based on **Software Requirement Specification (SRS)**.
- Integrated **RESTful APIs** by implementing **GET, POST, PUT, DELETE** operations.
- Conducted module testing and assisted in system integration to ensure smooth functionality.

➤ **More about myself:**

Father's Name	Udho Ray
Sex	Male
Marital Status	Single
<i>Nationality</i>	Indian

➤ **Declaration:**

I declare that the above information is true to the best of my knowledge.
